## Experience Immersive, Natural Room-Filling Sound

### Composite Wood Curved Cabinet

Composite wood delivers better acoustic properties compared to the more common plastic cabinets

### Easy Installation

Optical, analog, and Bluetooth connectivity allows for simple installation

### 6 Individually Amplified Speakers

4 Mid-Woofers and 2 Tweeters - each with its own amplifier - provide room filling sound

### Speaker Bar

(Grill removed to show speakers)

### Learning Mode

Easily pairs with your favorite IR remote

### Tailored for Your Sound

Three selectable listening modes designed specifically to optimize movies, music, and dialogue

### Bluetooth

Enjoy your favorite music streamed wirelessly from your smartphone or tablet

### Compact Yet Powerful

Wireless connectivity of the subwoofer to the speaker bar allows for ideal placement within your room
