\* Based on field data and accelerated factory tests. DVD-V7200 MTBF 10,000 at 100% duty cycle on units produced before June 1999.

\*\* Playback of CD-RW discs depends on media quality and disc formatting, 100% playback compatibility is not guaranteed.

\*\*\* Based on Pioneer New Media Technologies' lab tests, this is not a factory spec. Search times may vary depending on the disc and type of search.
