

DVR-R200

DVD-R/RW, DVD+R/+RW, DVD-RAM, and CD-R/RW Writer
with LightScribe Direct Disc Labeling

(available in black or beige)

OVERVIEW

The Pioneer **DVR-R200** retail bundle, featuring the **Pioneer DVR-111C DVD/CD Writer** and software from Roxio by Sonic Solutions®, enables computer users to create personal DVD movies, make digital photo slideshows, burn music CDs, and back up data files onto DVD-R, DVD-RW, DVD+R, DVD+RW, and DVD-RAM discs with ease. This Pioneer DVD/CD Writer (along with LightScribe enabled software) allows labels to be burned directly on DVDs and CDs.

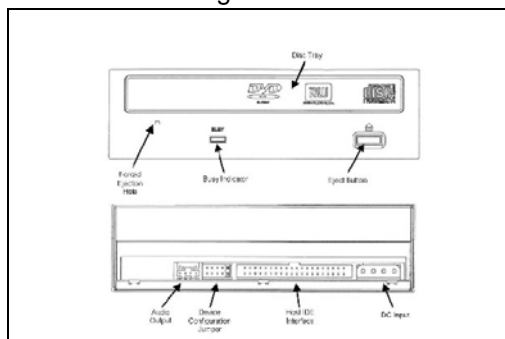

The DVR-R200 offers many industry-leading technologies including:

- Dual/Double Layer recording provides nearly double the capacity of a single layer recordable DVD-R (8.5GB vs. 4.7GB)
- Liquid Crystal Tilt/Blur Compensator plays and records to discs more reliably – the Pioneer technology that allows writing and reading of marginal quality discs
- Industry-Leading Drive Technology, provider of DVD-writable drives to computer manufacturers worldwide

SPECIFICATIONS FOR THE PIONEER DVR-R200 (DVR-111C ATAPI WRITER)

- Allows labels to be burned directly to DVDs and CDs when using compatible LightScribe media (LightScribe technology allows users to create direct-to-disc labels, thereby avoiding possible playback problems caused by stick-on labels)
