Before You Start

About this manual
This unit features a number of sophisticated functions ensuring superior reception and operation. All the functions have been designed for the easiest possible use, but many are not self-explanatory. This operation manual will help you benefit fully from this unit’s potential and to maximize your listening enjoyment. We recommend that you familiarize yourself with the functions and their operation by reading through the manual before you begin using this unit.

Operating with different head units
Operate this unit (for SIRIUS reception) with the connected head unit. For illustration, instructions in this manual use the "DEH-P4700MP" as an example of head unit.

Head unit group 1
Operation when using the following head units is the same as with the "DEH-P4700MP", operate following the instructions in this manual.

- DEH-P9600MP
- DEH-P960MP
- DEH-P6700MP
- DEH-P670MP
- DEH-P470MP
- DEH-P3700MP
- DVH-P5000MP
- FH-P5000MP

Head unit group 2
When using this unit with these head units, operate while referring to the head unit group 2 function compatibility chart.
• The following head units featuring MULTI-CONTROL operation.

- DEH-P8600MP
- DEH-P860MP
- DEH-P80MP
- DEH-P8MP
- DEH-P7700MP
- DEH-P770MP

Head unit group 3
When using this unit with these head units, operate while referring to the head unit group 3 function compatibility chart.
• The following head units featuring touch panel key operation.

- AVH-P7500DVD
- AVH-P6600DVD
- AVX-P8DVD*
  * ADD-ON mode (M) only.
Before You Start

Function compatibility charts
Operate using the same buttons on the head unit itself or the remote control.

What’s What

**Remote control (e.g. DEH-P4700MP)**

1. **SOURCE button**
   Head unit is turned on by selecting a source. Press to cycle through all the available sources.

2. **1–6 buttons**
   Press for preset tuning.

3. **BAND button**
   Press to select among three bands and cancel the control mode of functions.

4. **FUNCTION button**
   Press to select functions.

5. **▲▼◄► buttons**
   Press to do channel select, recalling channels and category select. Also used for controlling functions.
SIRIUS tuner

Selecting a SIRIUS source

Press SOURCE to select a SIRIUS source.
Press SOURCE repeatedly to switch between the following sources:
Built-in CD player—Television—Tuner—Multi-CD player—SIRIUS tuner (External unit 1)—External unit 2—AUX

Turning the unit off

Press SOURCE and hold until the unit turns off.

Listening to SIRIUS

These are the basic steps necessary to operate the SIRIUS.

1. Press SOURCE to select a SIRIUS (External) source.
2. Press BAND to select a band.
   Press BAND until the desired band is displayed: SR1, SR2 or SR3.
3. Press ‹ or › to select a desired channel.
   The channel number move up or down step by step.
   Channels that cannot currently be selected are skipped, and the next channel is selected.
   • If you press and hold ‹ or ›, you can increase or decrease channel number continuously.
   • You can also select a channel from a desired channel category. (Refer to “Switching the channel select mode”.)
4. Press SOURCE and hold until the unit turns off.

Storing and recalling channels

If you press any of the preset tuning buttons 1–6 you can easily store up to six channels for later recall with the touch of a button.
• Memory and recall are for broadcasts. If you recall a memorized broadcast that has been moved to another channel, the channel to which the broadcast was moved is selected.
• When you find a channel that you want to store in memory press a preset tuning buttons 1–6 and hold until the preset number stops flashing.
   The number you have pressed will flash in the preset number indicator and then remain lit.
   The selected channel has been stored in memory.
   The next time you press the same preset tuning button the channel is recalled from memory.

Notes

• It may take a few seconds before you can hear anything while this unit acquires and processes the satellite signal when you turn power on, change the source to SIRIUS tuner, or select a channel.
• Display changes as follows when you switch channels or operate in other ways. The text of selected display* is automatically scrolled.
  Channel number—Channel name—Selected display *
  * For details, refer to “Switching the display”.

• Up to 18 channels, six for each of the three bands can be stored in memory.
• When channel number select mode is selected, you can also use ‹ and › to recall channels assigned to preset tuning buttons 1–6.
• If a channel you have recalled cannot be selected, a message is displayed for 2 seconds and the unit returns to the operating status before the channel was recalled.

Notes

• For details, refer to “Switching the display”. [1]
Switching the channel select mode

You can switch if you select a channel with a channel number or from a channel category when you select a channel.

Initially, channel number select mode is selected.

1 Press FUNCTION to select FUNC2.
2 Press \( \Delta \) or \( \nabla \) repeatedly to switch between the following displays:
   - Channel number
   - Channel name
   - Channel category
   - Artist name/feature
   - Song/program title
   - Composer

**Note**

When you switch the display, the text is automatically scrolled.

Switching the scroll setting

You can select the scroll setting, one is the continuous scroll, the other is one-time scroll.

1 Press FUNCTION to select FUNC1.
2 Press and hold \( \Delta \) or \( \nabla \) to select the scroll setting.

**Note**

Depending on the head unit you are using, it may be possible to directly switch between the channel select modes using the allocated button. For details, refer to the head unit's manual.

Selecting the channel in the channel category

Channels are organized into various program categories, e.g. Rock, Classic, Jazz. You can search between different categories, and then search among channels within each channel category.

1 Select the channel category select mode. (Refer to “Switching the channel select mode” above.)
2 Press BAND to return to the previous display.

**Note**

If you select a channel of another category by channel recall, etc., during steps 3 and 4, the category selected in step 3 still remains in memory. If you press \( \triangleleft \) or \( \triangleright \), the channel number moves up or down in the selected channel category. Channels that cannot currently be selected are skipped, and the next channel in that channel category is selected.
