

DVR-509

DVD-R/RW, +R/+RW, CD-R/RW Writer

Product Overview

OVERVIEW

The **DVR-509** high speed DVD burner introduced by Pioneer enables computer users to record data, photos and video onto DVD-R, DVD-RW, +R and +RW discs with ease. It also works with dual layer discs, increasing the capacity of a disc from 4.7 to 8.5 gigabytes for even more storage space.

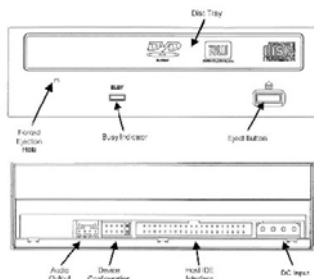

The DVR-509 offers many technologies unique to Pioneer, including:

- **Liquid Crystal Control** for optimum recording quality
- **Precision Recording** to minimize the effects of long-term deterioration of re-recordable discs due to repeated writing
- **Ultra Dynamic Resonance Absorber** to reduce vibrations during high-speed recording and playback of discs

MAIN FEATURES OF THE PIONEER DVR-509 WRITER

- Writes to DVD-R 4.7GB (single & dual layer), DVD-RW, DVD+R (single & double layer), and DVD+RW
- Writes to CD-R 700 (type 80), 650MB (type 74), CD-RW, Highspeed CD-RW, Ultraspeed CD-RW
